HELPER BOT BETA

What to Expect

This is an early beta. The cards below summarize the boundaries that matter while testing.

Platform

Platform

Windows x64 beta.

Connectivity

Connectivity

Internet is required for account checks and third-party services.

Speech recognition

Speech recognition

Transcription can be inaccurate, delayed, or affected by audio quality and routing.

Answer generation

Answer generation

Answers can be delayed, incomplete, inaccurate, or unsuitable. Review them.

Third-party limits

Third-party limits

Azure/OpenAI quotas, balances, policies, outages, and pricing can affect use. Testers provide their own accounts and credit.

Beta stability

Beta stability

Bugs, performance issues, and interface changes are possible. Availability is not guaranteed.

Updates

Updates

New builds can change behavior. Read release notes before updating.

Responsible use

Responsible use

Use only with appropriate permission; Helper Bot is not a recording, compliance, or decision-making service.
